

Market Forces

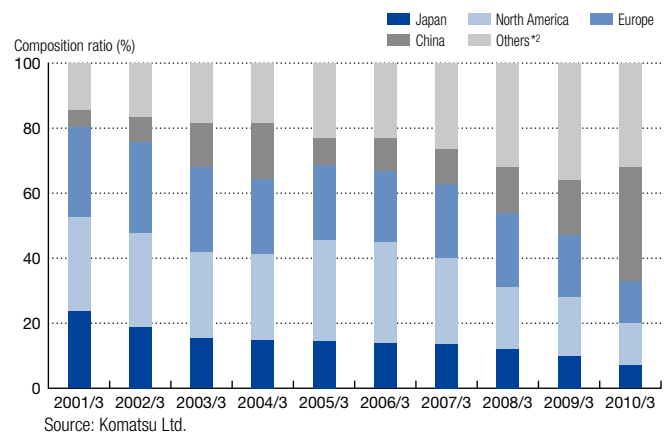

Construction, Mining and Utility Equipment

Global Demand for Seven Major Products *1

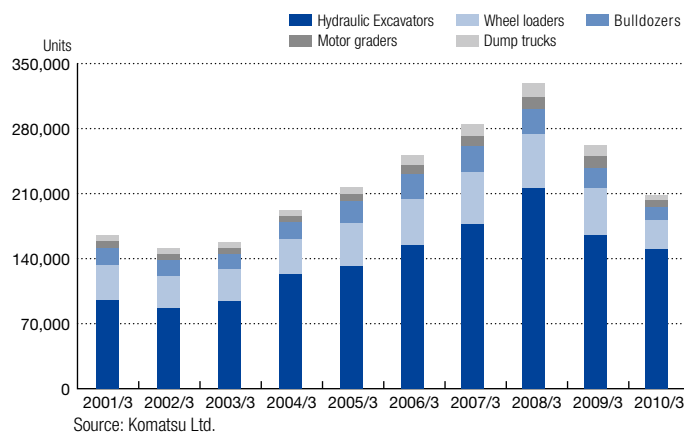

Demand by Region

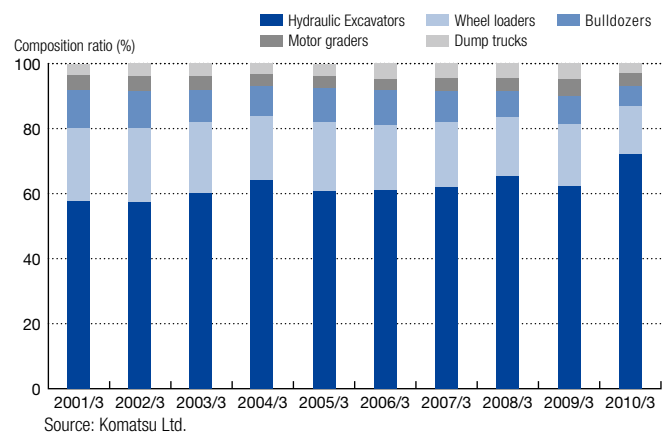

Demand by Region [Composition Ratio]

Demand by Equipment Type

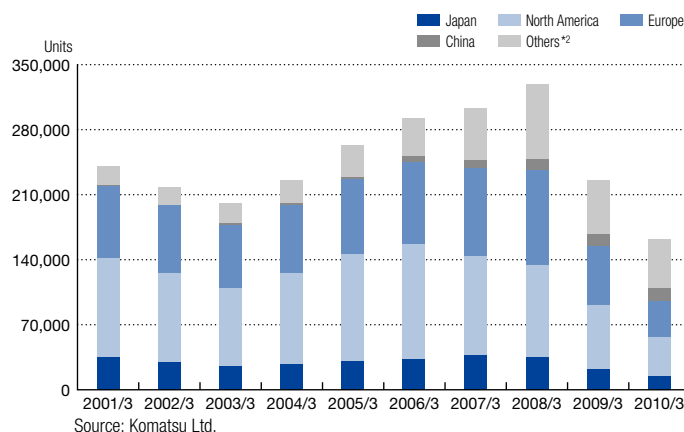

Demand by Equipment Type [Composition Ratio]

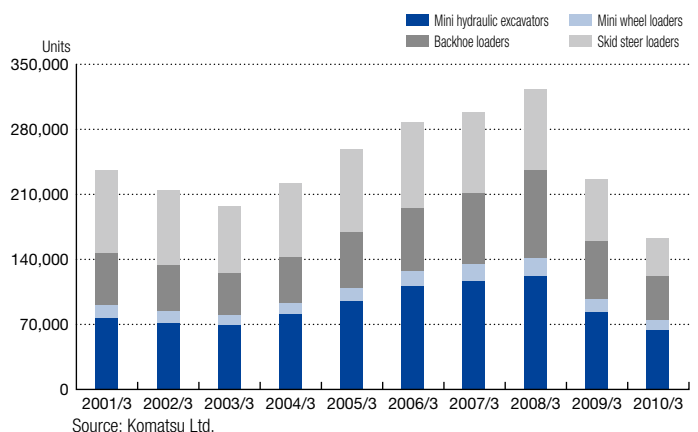

Global Demand for Utility Equipment *3

Demand by Region

Demand by Equipment Type

Notes: *1. Seven major products consist of hydraulic excavators (crawler type and wheel type), wheel loaders, bulldozers, motor graders, and dump trucks (rigid type and articulated type), excluding utility equipment.

*2. Other regions consist of Asia (excluding Japan and China), Oceania, Latin America, CIS, Middle East and Africa.

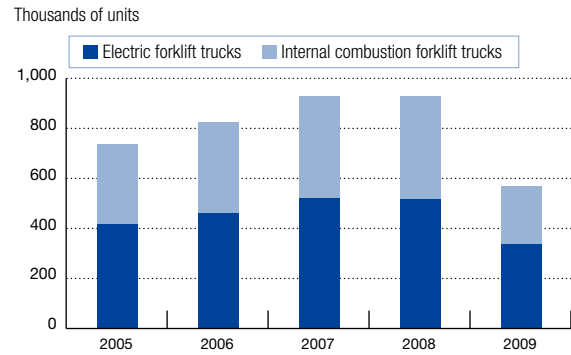

*3. Utility equipment consist of mini hydraulic excavators, mini wheel loaders, backhoe loaders and skid steer loaders.

Global Demand for Utility Equipment : Forklift Trucks

Years	Thousands of units				
	2005	2006	2007	2008	2009
Internal combustion forklift trucks	322	364	412	414	234
Electric forklift trucks	416	460	519	515	332
Total	738	824	931	929	566

Source : Komatsu Ltd.

Note : Electric forklift trucks include walkie-type and reach-type forklift trucks.

Industrial Machinery

Orders Received by Member Companies of Japan Forming Machinery Association

Years	2005	2006	2007	2008	2009
Amount of orders (Billions of yen)	359.6	371.6	384.3	344.7	112.4
Growth rate (%) compared with the previous year	23.0	3.3	3.4	(10.3)	(67.4)

Note : Large, medium-sized and small presses, sheet-metal machinery as well as product support among Komatsu's industrial machinery meet Japan Forming Machinery Association's categorization, while steel processing machines, machine tools, robots, and parts are not included.
