

Komatsu's 320XPC blasthole drill: Power and reliability you need for the productivity you demand

**Ultra-class performance:
Pairs perfectly
with the P&H
4100XPC shovel**

When mining conditions get tough, you need dependable drilling power to keep production on track. The Komatsu 320XPC drill is built with rugged construction and powerful pulldown force to help break through tough rock. Advanced controls and smart backend systems put the right data at your fingertips, helping you make informed decisions. Designed for productivity shift after shift, the 320XPC delivers reliable penetration rates and smart performance to keep your operations moving.

- **Powerful pulldown** with electric top-drive rack and pinion to keep your operations moving
- **Built for the harshest environments** whether it's arctic conditions or extreme altitude
- **All-electric** pump and compressor drive motor, rotary and pulldown deliver reliable performance
- **Real-time data and monitoring** support data-based decision-makers

Hit your production targets with rugged, reliable drilling

The 320XPC blasthole drill is engineered to deliver consistent, high-volume production in demanding mining environments.

Power and productivity you can count on

The 320XPC's powerful pulldown and robust frame enable efficient, consistent hard rock drilling, accelerating blast cycles to maximize material movement and enhance production.

Performs in harsh environments

Committed to providing drilling equipment wherever your mine is located. The 320XPC is designed with the power and air capacity to promote productivity at altitudes over 14,000 ft and arctic temperatures.

Smart drilling with real-time insights

Advanced diagnostics to enhance your machines performance and reliability combined with PreVail RHM provide you the necessary data at your fingertips.

Designed for maximum uptime

The 320XPC all electric delivers reliable performance shift and shift. With ground-level service access, centralized lubrication, onboard diagnostics and wide walkways that streamline maintenance and keep your crews drilling.

Let's put the 320XPC to work for you. Contact us to speak with a rep.
