

Make every shift and every hole count with Komatsu's ZR122 blasthole drill

When the pressure is on to hit daily targets, you need a drill that delivers on production, availability and cost per meter. The Komatsu ZR122 is a tough, tech-smart machine built for demanding drilling conditions, delivering power, precision and reliability where it counts. With powerful torque output, flexible setups and seamless automated features, it supports safe, consistent, high production drilling to keep you on target.

- **Long-term reliability** with a rugged, reliable boxer style mast
- **Power through tough rock** with a high-performance rack-and-pinion pulldown
- **Maintain hole quality** with an automated bit changing system
- **Drill with precision** using high-precision GPS
- **Tackle the toughest jobs** with a partner you can count on

**Tired of downtime and inconsistent drilling? Discover what the ZR122,
backed by Komatsu authorized service, can do for your productivity.**

Meeting the demands of modern drilling with strength and innovation

The ZR122 is a rugged, high-performance drill built to tackle tough rock with confidence. From its innovative structural design and advanced rack-and-pinion pulldown system, the ZR122 is built to deliver reliable performance shift after shift.

Make the most of every shift

The ZR series' innovative boxer style mast features increased structural reliability and is designed to reduce maintenance inspection time, increasing machine availability.

Power through tough rock effectively

The rugged rotary carriages deliver 122,000 lbs. of weight on bit and 16,000 lbs. of rotary torque to power through hard rock drilling conditions.

Drive safety and maintain hole quality

The fast, efficient auto-bit carousel is designed to reduce risks present during manual bit handling. With fresh bits always available, operators can choose to make quick change-outs for optimal fragmentation and hole stand-up.

Drill with pinpoint accuracy

Enhance productivity with precise hole placement using high-precision GPS. Drill to plan, leading to better blasts and more efficient down-stream processes.

Ready for tough drilling challenges

When your site demands a low cost per meter drilled and blasted, the ZR122 is designed to deliver, even in tough and challenging conditions.

Need a drill that's ready to work hard every shift? Talk to your local rep today to see how.
