

Advanced technology solutions training courses

Technology training that drives long-term mining success

Mine performance starts with your people. That's why Komatsu offers targeted training for key technologies like DISPATCH, ProVision and MineCare — helping your team build the data-driven skills to drive safer, more efficient and productive operations.

Effective training for real-world results

Whether your team is just getting started or looking to expand their expertise, we'll work with you to develop practical skills that translate to real-world results.

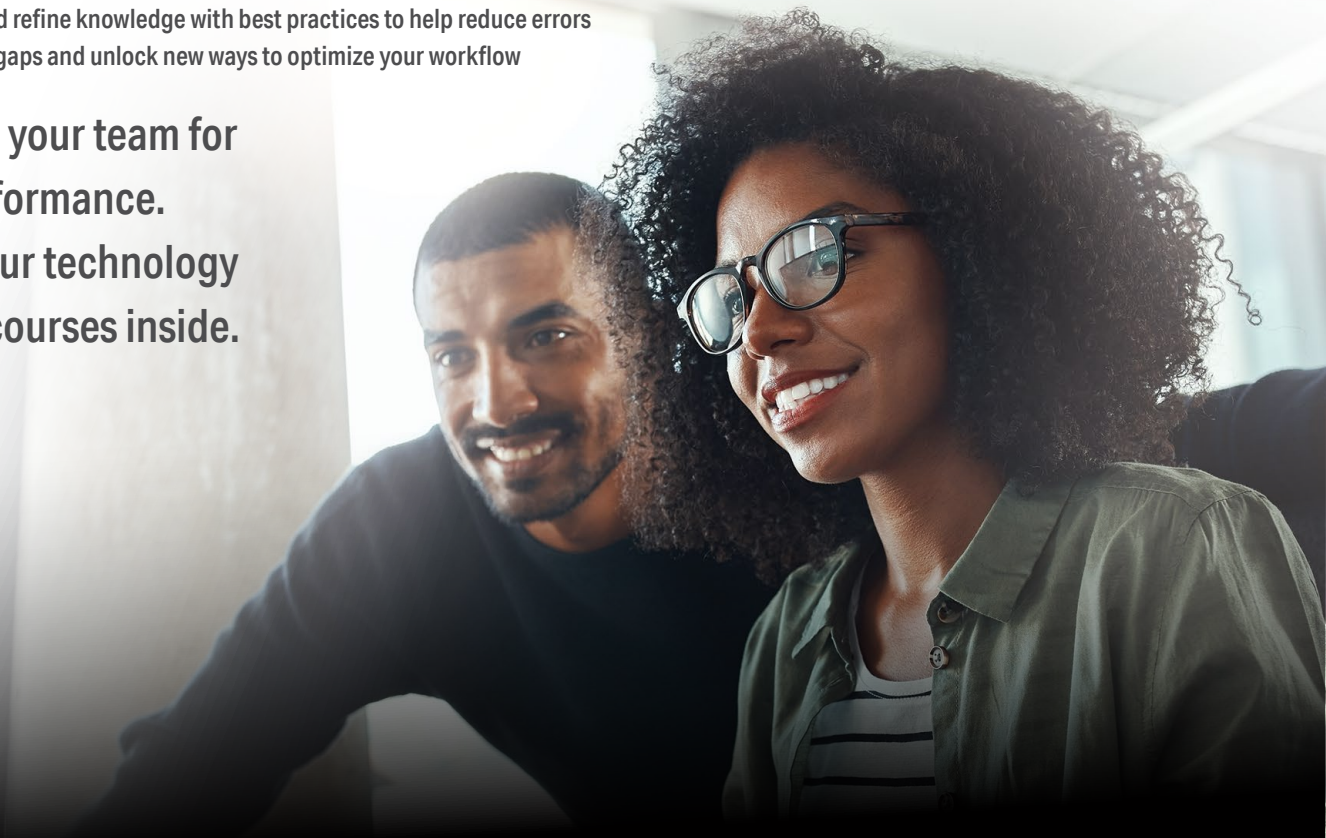

For new users:

- Build strong fundamentals and confidence for fast onboarding and reduced training time
- Avoid common mistakes with guided, hands-on instruction

For experienced users:

- Refresh and refine knowledge with best practices to help reduce errors
- Close skill gaps and unlock new ways to optimize your workflow

Empower your team for peak performance.

Training courses at a glance

DISPATCH class descriptions

DISPATCH is your command center for real-time equipment, personnel and task coordination, helping you optimize fleet performance and streamline operations.

DISPATCH Fundamentals

8 hours, 16 lessons

English, Portuguese, Spanish

This introductory four-part course teaches your team the fundamental DISPATCH skills needed to effectively manage daily loading, hauling workflows, personnel and equipment.

DISPATCH Equipment Operator

2 hours, 5 lessons, tailored by equipment type (haul trucks, shovels or auxiliary)

English, Portuguese, Spanish (full course)

Finnish, Swedish (selected lessons)

Learn to effectively use the DISPATCH mobile computer in the field to perform essential tasks, advance the production cycle, and optimize loading and hauling with real-time guidance and data.

Certified Modular DISPATCH User (CMDU)

16-hour, 20-lesson elearning DISPATCH on-the-job training certification

English, Portuguese, Spanish

Fee-based course

Gain hands-on experience and earn your entry-level DISPATCH User certification to help build the confidence to execute mine plans more effectively.

ProVision class descriptions

ProVision delivers real-time guidance to help your equipment operators work accurately, efficiently and productively.

ProVision Fundamentals

5 hours, 6 lessons

English

Learn how ProVision fits into your fleet and how dispatchers use it to track equipment performance, project progress and operational efficiency.

ProVision Equipment Operator

2 hours, 6 lessons

English, Finnish, Spanish (full course)

Russian, Swedish (selected lessons)

Learn to operate shovels, loaders, dozers and drills accurately and efficiently using real-time guidance from the ProVision Machine Guidance System.

Guided Spotting: Haul Truck Operator

1 hour, 1 lesson

English

Confidently guide your haul truck using high-precision GPS. Learn system basics, how to read the display and how to set fixed load spots to help improve efficiency and cycle times.

Guided Spotting: Shovel Operator

1 hour, 1 lesson

English

Learn to operate the Guided Spotting System with precision. This course covers load spot setup and best practices for shovel and backhoe operators during digging operations.

MineCare class descriptions

MineCare helps you track maintenance, monitor equipment health and improve uptime — all through one advanced system.

MineCare 2 Fundamentals

4 hours, 5 lessons

English (full course)

Russian (selected lessons)

Learn to detect performance issues early and track equipment health in real time with MineCare 2, helping increase uptime and reduce maintenance costs.

MineCare 2 Administrator

4 hours, 6 lessons

English

This course teaches users to utilize MineCare 2 administrative tools like configuration utilities and the event handling application for optimized equipment monitoring and maintenance.

MineCare 3 Fundamentals

3 hours, 5 lessons

English

Learn to navigate the modern MineCare 3 Asset Management System and apply it to monitor equipment health and streamline maintenance operations.

Ready to experience the difference?

Investing in Komatsu training empowers your operators to:

- **Boost productivity** with smart workflows
- **Enhance safety** through better system knowledge
- **Improve efficiency** by making smart, data-driven decisions
- **Catch issues** early to help reduce downtime
- **Maximize ROI** with confident, capable operators

Get more from your technology by investing in the people who run it. Talk to your Komatsu representative today.
