COUNT ON KOMATSU

Komatsu Forklift Australia is the exclusive supplier and distributor of Komatsu Forklifts and CVS Ferrari Forklifts in Australia. We also distribute Carer Forklifts and Kevrek Cranes nationally.

Komatsu Forklift Australia is 100% owned by Komatsu Ltd, which manufactures construction, mining and material handling equipment in factories throughout the world. We proudly service a wide range of industries delivering innovative and technically advanced solutions for all material handling needs.

Komatsu is globally recognised as a manufacturer of ergonomic, reliable & exceptionally well engineered forklifts that are built to last. With a forklift manufacturing history of over 60 years, originating from a heavy construction equipment background, we know how to build equipment.

Our safe, simple-to-operate and reliable range of products can be purchased, financed or hired and comes with extended warranties – a testament to our products' superior quality & reliability.

Integration of Komatsu's traditional durability and innovative technologies are common features in all Komatsu products. Our forklifts are designed to reduce operator fatigue and enhance efficient, safe operations while providing economical, environmentally friendly performance.

QUALITY & RELIABILITY

At Komatsu Forklift Australia we guarantee quality and reliability in all our products and services. That's why we offer Australia's leading forklift warranty (up to 5 years or 10,000 hours) on all new Komatsu forklifts.

Komatsu has been in Australia for more than 60 years. With over 25,000 Komatsu forklifts delivered into the Australian market, we have become one of Australia's leading suppliers of material handling equipment by understanding the needs of our customers & the Australian market.

We are here for the long haul, so you can have confidence that we will support you and your Komatsu equipment for a long time to come.

SOLUTIONS

Extensive Range

Gas and Diesel

The Komatsu forklift range includes diesel and LPG / Petrol counterbalance forklifts ranging from 1.8 to 5.0 tonne & 1.8 - 25 tonne capacity in diesel.

Hydrostatic

The new FH Series diesel forklifts (4–16 tonne) combine Komatsu's proven construction innovations with advanced technology to cut operating costs and boost performance. Featuring Komatsu's exclusive HST hydrostatic drive, CLSS hydraulic system, and KOMTRAX remote monitoring, these forklifts deliver exceptional reliability and fuel efficiency—reducing your carbon footprint and total cost of ownership. Perfect for demanding industries like timber, construction, recycling, and steel, the FH Series sets a new standard in durability and smart fleet management.

Electric

Our range of 3 and 4 wheel total AC battery electric counterbalance forklifts covers capacities from 1.8 - 2.0 tonne. The 2.5 - 3.0 tonne range features a 72 volt battery for longer running times & include Komatsu's remote monitoring & reporting system KOMTRAX. Komatsu's electric range comes with many standard features including IPX4 Waterproof rating and integral side shift. Komatsu electric forklifts are reliable, environmentally friendly, comfortable, energy efficient and above all safe.

Warehouse Equipment

Komatsu completes the material handling picture with access to leading brands of warehousing equipment. If we don't have the required equipment in our extensive product range we will source from a range of leading brands. Not being tied down to any particular brand allows us complete flexibility to source the best solution available to meet our customer's needs.

CVS Ferrari

CVS Ferrari forklifts are renowned for their precision engineering and durability, making them ideal for heavy-duty applications. Komatsu Forklift Australia is the exclusive distributor of CVS Ferrari forklifts, giving Australian businesses access to this premium European brand. This partnership combines Komatsu's trusted service network with CVS Ferrari's advanced technology for unmatched performance and reliability.

Carer

Delivering powerful, zero-emission performance for heavy-duty applications, Carer electric forklifts offer an eco-friendly alternative to diesel, reducing costs and environmental impact without compromising reliability.

Kevrek Cranes

Ideally suited for tray or chassis mounts, Kevrek cranes are well suited for the utility and small truck user in State and Local Government, Industrial, Commercial, Mining, Marine and Agriculture sectors. Kevrek cranes can also be installed on trailers, drill rigs, boats, vans etc.

SOLUTIONS

Rental

For many businesses, renting material handling equipment makes more sense than buying. Choosing rental equipment has the advantage of being tax-deductible and flexible to meet your changing needs.

Renting forklifts also has the advantage of providing the end user with the latest technologies, safety features and fuel saving benefits.

As an added benefit, long-term rental agreements give the comfort of a known fixed monthly cost with no unforeseen expenses.

Komatsu short or long term forklift rental can free up the working capital that is invested in forklift ownership. Komatsu offers our entire range of forklifts for fully maintained rental at highly competitive prices.

Finance

We make finance easy for many of Australia's largest companies. Finance options include finance lease, commercial hire purchase or chattel mortgage.

The advantages include competitive rates and flexible repayments. We can tailor solutions to meet your cash flow, currency, taxation, interest rate outlook and balance sheet requirements.

Service Support

Komatsu Forklift Australia owns and operates a national network of branches including an extended network of partners and dealers. This ensures our quick response, even in remote locations. With access to over 900 professionally trained Komatsu technicians nationwide our coverage is second to none. We provide a reliable, cost effective answer not only for our Komatsu products but for just about any piece of equipment.

Spare Parts

Keeping your costs down and your forklifts running at optimum performance levels is our goal. We encourage Komatsu forklift owners to keep their forklift 'all Komatsu' by using genuine parts that meet the original equipment requirements. You can count on your local Komatsu Forklift Australia branch to carry a full line of genuine Komatsu parts, backed by our spare parts distribution centres in Sydney & Perth.
