

Delta Series Crawler Shoes Genuine Service Products

Benefits at a glance

Increased productivity

- Proven in the most extreme mining environments
- Designed to reduce maintenance and eliminate unscheduled downtime
- Engineered as a complete system to ensure all component lives are maximized, getting the most out of your investment

Lower total cost of ownership

- Patented peening pads optimize material flow for less residual stress on shoes
- Cast manganese shoes work hardened to 500 BHN provide excellent wear resistance without sacrificing toughness
 - High wear resistance is critical to extending roller path and pin bore life
 - Proven performance in all mining applications and climates

Enhanced safety

- Longer maintenance intervals reduces employee exposure to safety risks from maintenance activities
- Longer crawler system life increases change-out intervals reducing employee exposure to safety risks from system change-outs and component replacement

Setting the standards for
crawler shoe and drive system
quality and durability

The genuine P&H seal stands for quality and performance. For surface mining operations looking to enhance safety and improve shovel productivity, P&H Delta series crawler shoes from Komatsu are the best option.

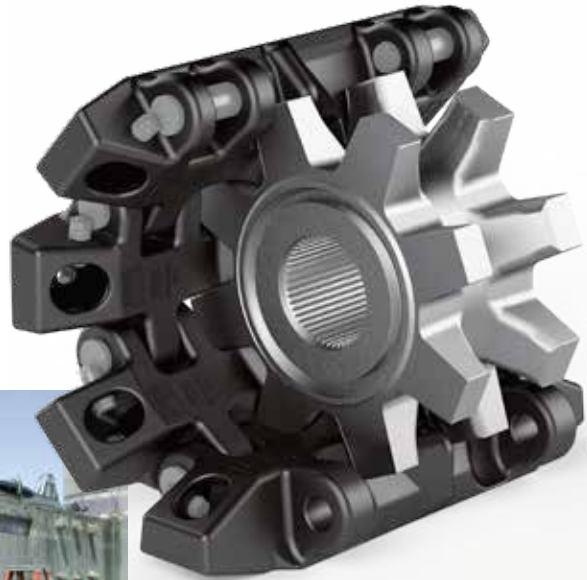

Using the industry's most sophisticated design, engineering and manufacturing technologies, Komatsu has set the standards for crawler shoe and drive system quality and durability.

Our service products are engineered to meet our exacting application and design standards, ensuring optimal crawler system performance. Genuine service products, for P&H machines from Komatsu. They're a perfect fit.

Related products and services

- P&H Delta series tumblers and drive systems
- Lower works and undercarriage installation
- Crawler frame and propel transmission repairs and rebuilds
- Shovel overhauls and undocking
- Machine audits and inspections
- Full machine assembly and rebuilds
- Equipment relocations

A genuine P&H Delta series crawler shoe...

... Is designed for fit and function with our OE Delta series drive system

... Helps to reduce mine operating costs through extending crawler shoe and crawler system life, reducing unplanned downtime

... Provides greater track efficiency via larger drive lugs with more engagement surface area, providing less wear to the shoe and drive tumbler
