

150 kW Battery Charger

Power up your mining machines with this powerful charging solution

Maximize your productivity and minimize downtime with Komatsu's cutting-edge battery charger. This reliable and efficient charger is built to withstand harsh conditions and power a wide range of battery-electric equipment. With its sealed enclosure, intuitive controls and upgradable design, this charger is the ideal choice to keep your machines moving, now and into the future.

Quick specs

- Compatible with a wide range of battery-powered equipment
- Built to withstand harsh underground conditions
- Designed to minimize energy consumption with power-dense design
- Easy to integrate with a future-ready design

Ready to make the connection and elevate your mining operation?

Tackle your tasks with this convenient charging connection

Your mining equipment relies on consistent power to get the job done. This is why Komatsu developed a battery charger that can replenish your equipment's batteries efficiently and reliably, even in harsh conditions.

Charge a variety of machines

This charger is designed to be used with almost any battery-powered mining equipment that has a CCS2 connector, making it a convenient and flexible solution for your mine.

Tough enough for underground

Built for the demands of underground hard rock mining, this ruggedized charger is not only durable but also highly portable with its compact design.

Versatile and adaptable

With 400-600 VAC and 1000 VAC input voltage options, you can directly connect this charger to your mine's power system without costly isolation transformers and deliver up to 150 kW of power.

Sealed for success

The fully sealed enclosure helps eliminate the need for ventilation or liquid cooling, protecting internal components from dust and moisture for reliable performance.

Intuitive operation, future-ready design

User-friendly with intuitive controls and a clear display, this charger has an upgradable design and connectivity-ready features for easy integration with evolving systems.

Preparing for another day of productive mining?

Power up your equipment with Komatsu's new battery charger.
